Modification Proposal Title:		Interconnector Registration	
Trading and Settlement Code section(s) affected by Modification Proposal			
2.71, additional clause in Section 7			
Modification Proposal Description			
<i>Clearly state the desired amendment and all text formula changes to the code and/or Attach further information if necessary</i>			
<p>7.4A Until the date that is 12 months after the Market Start Date, paragraph 2.71 shall be replaced with:</p> <p>A Party (or an Applicant, as applicable), being the relevant Interconnector Owner, may register procure the registration of an Interconnector by the relevant Interconnector Administrator in accordance with the procedure for registration of Units (as if references to Units were references to an Interconnector) subject to the additional requirements set out in paragraphs 2.72 to 2.84. The Party registering the Interconnector shall be treated as the Interconnector Owner for the purposes of the Code.</p>			
Modification Proposal Justification			
<i>Clearly state the reason for the Modification. Attach further information if necessary</i>			
<p>The Market Operator systems are such that an Interconnector can only be registered to an Interconnector Administrator Party. As currently drafted in TSC2.71, the systems will not be compliant with 2.71. In addition, the other provisions relating to interconnector roles in Section 7 are inconsistent when considered with TSC2.71. This could also be a Data Protection or Freedom of Information issue, as the SMO would be releasing information from the systems that would be for the Interconnector Administrator which relates to data provided by the Interconnector Owner.</p>			
Implication of not implementing the Modification			
Market Operator systems will not be able to deliver registration of an Interconnector to an Interconnector Owner.
